

# Is Autofill for I-PRO RIGHT for Your Operation?

**What's the main reason why you would add Autofill Lids to your I-PROs?** If you are manually filling your I-PRO more than once daily you need the I-PRO Autofill Lids. NOTE: ROI would be just 1 month

**What are the other benefits of adding I-PRO Autofill Lids?**

- Increase Visual Appeal – always available, increasing sales
- Enhance Accuracy and Consistency – automatically adds the perfect amount of water and syrup every time
- Reduce Labor – keep staff focused on customers
- Minimize Training – simple set-up and operation
- Reduce Downtime – manual re-filling is time-consuming
- Increase Food Safety – minimal exposure to product
- Seamless Integration – update existing equipment or your entire system
- Reduce Waste – prevents loss from incorrectly mixed product
- Versatile – perfect for BIB or in-house syrup programs

## FIRST... Let's Review the Basics About Crathco Autofill.

**Do you currently own a I-PRO 2M, 2E, 3M or 3E?**

\_\_\_ Yes Great! \_\_\_ No, we can help you get set up with a Crathco I-PRO

**Does your current product come in a Bag-In-Box packaging? (BIB)?**

\_\_\_ Yes Great! \_\_\_ No, ask us for recommendations

**Do you currently have a CO2 system with BIB rack in your operation?**

\_\_\_ Yes you can move on and purchase! \_\_\_ No, you'll need to rent a CO2 tank with pressure regulator to install syrup line and purchase a 4 BIB rack system (1 Flo Jet pump for each BIB flavor ie: I-PRO @M 2 Flavors = 2 Flo Jet pumps required OR Use Electric Flo Jet pumps and purchase a 4 BIB rack system)

**Do you have a Carbonated Beverage rack system in your operation?**

\_\_\_ Yes - You can work with that beverage company for installation  
\_\_\_ No, We can help you source one

**Who installs Crathco Autofill Lids? You have 3 Options:**

1. Install the Flo Jet pumps and syrup lines from BIB rack to the location of the I-PRO Beverage Companies, (ASA additional cost)
2. Install 3/8" water line to location of I-PRO using a plumber (additional cost)
3. Install set up I-PRO with Autofill Lids (additional cost-ASA certified installer,rep groups can all do it)

## Next... Let's Address Some FAQs About Crathco Autofill.

1. **What kind of beverage products work with the AF Lids?** Either Pre-Mix or Post-Mix BIB, either 3 gal or 5 gal BIB's
2. **What's included in an Autofill Kit?** 1 water regulator, 2@1/4" fitting threads, 3/8" tubing, 1 pressure gauge, 2@3/8" elbow coupling connector tubing
3. **Can you just install the Autofill lids yourself?** Possibly - with the manuals and some guidance from your local rep
4. **What is the Warranty on the AF lids?** 1 year replacement parts and labor installation. This does not apply to the installation of the syrup lines or connections to the AF lids
5. **Can lids use different syrup ratios BIB's?** ie 4:1 5:1? Yes lids will be set up at installation for proper syrup/water ratio by installer
6. **What are the 2 lights on top of the lid for?** "Sold Out" switch alerts operator by red indicator lights syrup is low or water connection needs attention. You need specific pressure on both water and syrup for the AF lid to function. Water Supply: Min 30psi/Max 120psi • CO2 : Max 60psi • Low Pressure Cut-Off: <5psi
7. **How many lids does a Transformer power?** 1-4 lids
8. **How often do you need to clean the AF lids?** We recommend a flush with our Stera Sheen solution every 4 months. This is dependent on the type of product you use and your consumption
9. **Can you use electric FloJet pumps if you are not a CO2 user?** Absolutely!
10. **Does Crathco provide Manuals and Guides?** Yes we have a dedicated page on our website which includes all these documents
11. **Does Crathco have other customers currently using the Autofill Lids?** Yes! We'll be happy to provide references for you
12. **What is the expected life of the Autofill Lid?** 5-7 years depending on maintenance and cleaning
13. **Are there any Spare Parts needed?** You can order these spare parts from Partstown

<https://www.partstown.com/electrolux-professional-partnership>

Spare Part Description	Partstown Product Code
Bottom Lid I-PRO	210-00971
Grommet Top Cover I-PRO	290-00216
Water Regulator	310-00035
Pressure Gauge	310-00038
Jack Power Cable	343-00471
AC/AC Power Supply 120 Input 120V	346-00107
Kit Body Assembly I-PRO	250-00452
Y Split for Pre-Mix and Cleaning	238-00053

14. **What is the total cost of the system, including installation and any additional parts?** Please contact your local rep or equipment dealer
15. **How does the BIB autofill system improve operational efficiency? Will it reduce labor costs?** Yes-less time filling the bowls and mixing product as well as the cleaning time is reduced due to less employee contact with the machines-Savings range from 20 -50 labors hours per month
16. **How reliable is the system? Are there any common issues or failures you should be aware of?** Very reliable,Most issues are installation or pressure related-not the lid
17. **What is the capacity of the BIB system? How often will you need to replace the bags?** Most BIBs are 3 or 5 gallons with generally 5:1 syrup ratio which means approx. 275 @14 oz drinks per 5 gallon BIB
18. **Will the autofill system maintain the quality and consistency of beverages?** Yes-This is the consistency value vs manual fill and mix
19. **Are the BIB containers recyclable or environmentally friendly?** Many BIB's are made from recyclable materials
20. **Can the BIB autofill system be integrated with other existing systems or technologies in your operation?** Not currently
21. **Is there any training provided for staff to operate and maintain the system?** Training is in document and video format online as well as in person for opportunities with multiple locations
