- **Reduced Downtime** manual re-filling is time-consuming
- Increased Food Safety minimal exposure to product
- **Seamless Integration** update existing equipment or your entire system
- Waste Reduction prevents loss from incorrectly mixed product
- **Versatile** perfect for BIB or in-house syrup programs

HFRE'S HOW AUTOFILL WORKS

Parts included: 1 water regulator, 2 fitting threads: 1/4" tube OD. 3/8", 1 pressure gauge

- Automatically senses drink volume through integrated lid sensor.
- When level falls below the probe, fill tube automatically refills the bowl with the perfect blend of BIB syrup and water.
- Post Mix process mixes beverage syrup in the bowl.
- "Sold Out" switch alerts operator (by red indicator lights) syrup is low or water connection needs attention.
- Beverage syrup ratio can be set to specific needs.
 Controlled by gas pressure.
- Integrated LED light improves product display.
- Optional gas pump with special model supports for pulpy products.
